

TOMBSTONE PROSPECTOR

JANUARY 6, 1889.

IMPORTANT NOTICE.

The WEEKLY PROSPECTOR will make its appearance either this week Saturday, or the week following. It will be an eight column sheet, and will contain all the important local events and all the dispatches appearing in the DAILY PROSPECTOR during the week. It will be circulated throughout the county for the first week or two without compensation. It will be the best advertising medium in the Territory. Its advertising rates will be low. The expense of running a weekly is so small that the PROSPECTOR has concluded to fix prices accordingly. We have three columns left for sale which can be had for the small sum of five dollars per column per month. Smaller space at very low figures. Call early and secure your space.

LOCAL NOTES.

At the Pony, Clam Juice. Try it. 28th

During district court clerk Daily's absence, Mr. James Hennessy will have charge of his office.

An immense lot of new goods in the line of wall paper, crockery and glassware just received at Bagge's.

Joe Pascholy will leave for the new camp next week to look around with the intention if profitable, to drive his stakes there for a while.

Arnold's Wood Yard and Express Wagon. Orders left at Walker's cigar store or Fitts' store promptly attended to. C. H. Arnold, corner Eighth and Safford streets. 11 27

Mary had a little lamb
With which she used to tussle,
She pulled the wool off its back
And made herself a bustle.

Papers were filed yesterday in the District Court Clerk's office in which A. C. Rogers et al. sue Clark Bros. of Benson, for \$363.82, which they claim is due them for goods furnished.

A sea bath at home can be had by buying a package of Ditman's Sea Salt at Yonge's Drug Store. 12 1st

The annual meeting of Rescue Hose company will be held this afternoon at 2:30 o'clock, at the City Hall, for the election of officers. Let every one attend.

The new steward at the hospital has been indisposed since his new duties were assigned to him, and the former efficient steward George Haenger condescended to take charge till the new incumbent has recovered.

During Judge Monk's absence the affairs of his office will be conducted by his brother. The former gentleman will probably stop off and visit the new camp on his way to California.

George Daily left yesterday for California; from there he will go to Prescott and will not return to Tombstone till the legislature to which he was elected at the recent election, has adjourned.

The social at Mining Exchange hall last night was a complete success, and Sheppard & Trevillian are to be congratulated on their fortunate hit in inaugurating these Saturday night affairs.

Jo Shurtliff yesterday received a letter from A. Ross, who is at the new camp in Yuma county, in which he told the former some more wonderful stories regarding the new discovery. He intimated that he was doing well and advised the former to come at once.

Under the new law as contained in the code the price of recording mining notices is increased from \$1.75 to \$2.35. This figure is in accordance with an opinion of District Attorney Hereford, obtained by Recorder Shibell; \$2.35 is the maximum, and some of the small notices amount to as low as \$1.95.—Citizen.

WEEKLY MINING REPORT.

The Mining Excitement in Yuma County the Centre of Attraction.

But the Tombstone Mines Continue to Produce their Share.

The excitement over the new strike in what is known as Centennial district, is unabated. The latest reports but confirm the first stories of the rich and extensive deposits of mineral in the new district. The rush for the new camp is unprecedented since the discovery of Tombstone, and its permanent and prosperous future will be of great advantage to the future of southern Arizona. Capital will come and will not, after it has once crossed the line into our Territory, retire without investigating the mineral resources of our southern counties. Tombstone has nothing to lose by the exodus of a large number of her citizens; others will come and fill up the vacant places—new blood and new life. And that is just what we need to bring us out of our present dormant condition. Southern Arizona is being more extensively advertised at present than at any time during the past eight years, and it is a very narrow-minded man that will look upon the present boom with a feeling of jealousy.

The Herschel continues to keep up its record as being a bullion producer of no small magnitude. Two cars of four hundred dollar ore have been shipped during the past week. The south drift on the 60-foot level was brought to a sudden stop by breaking through into a drift of the Old Guard, which had been run in the Herschel ground about twenty feet, when the shutting down of work on the former stopped operations. Most of the ore is being taken from the stopes. The winze is down 27 feet in a body of high grade ore. A drift has been started from the north shaft, running south with indications of ore on all sides.

Work is progressing vigorously; the painting of the building is about completed and the galleys frame will be placed in position to-day. The usual amount of good ore is being taken from the different levels, and the ore bins are full. It is expected that by the end of the present month the new machinery will be in readiness to begin active operations.

The Empire will soon change hands. The patent was filed for record yesterday, and it is rumored that the Grand Central Co. will take possession before many days.

The T. M. & M. Co. are working the Lucky Cuss, East Side and Sulphur with the same good results and usual shipments.

The Emerald is increasing its output considerably since the work of the Rand drills is being felt. The ore is of the same high grade and is being taken from the different levels.

The following is the report from the Quijota mines and is official:
Weldon—Fair progress has been made in the south drift on the 50-foot level, where the pay strata shows a width of about 34 feet, which samples \$39.76 per ton in silver and \$12.25 in gold. At a point about 300 feet north of the old works on the surface have struck four feet of ore, which averages \$28.27 per ton. Will do some prospecting at this point after further exploration among the croppings.

Peerless—From the open stopes near the Peer line the usual amount of fair grade ore has been extracted. Stopes on the 100 foot level are looking about the same as reported last week. On the 200-foot level the stopes continue to furnish a regular amount of good ore. Fair progress has been made during the week in the winze in the east parallel drift on the 200-foot level, without any change of importance. On the 300-foot level the stopes are furnishing the usual amount of good ore. During the week 144 tons of ore were crushed, the average, according to battery samples, being \$30.47 per ton. There is bullion now on hand valued at \$3,800.

Crocker—The south drift has been extended to about 171 feet from the

main west cross-cut without any change of importance since last broken, the formation continuing broken and showing same ore in bunches.

Mr. R. M. Howland, son-in-law of our townsman, Mr. E. Meyers, arrived by the morning train to-day on his way to the new bonanza camp. He comes down in the interests of a San Francisco syndicate, who, if he is satisfied with his examination, will take hold of the camp and make things howl in the California style. We are confident that Mr. Howland will find true all that has been represented of this camp.—Phoenix Herald.

The Silver Leaf and Silver Top mines, situated in the Clark district and owned by the Morris brothers, of this place, have been bonded for \$20,000, for sixty days to Colonel George F. Roberson and Major F. W. Smith, of Tucson. We congratulate the Messrs. Morris on their good fortune.—Wilcox Stockman.

It is reported that arrangements are being made to resume active operations at the Gun Sight mine. This mine is said to be a good one, and when properly worked will produce bullion in satisfactory quantities.

The "Chiv" silver property, in Harshaw, is being successfully chlorided by David Allen. The Empire has also proved a good chloride proposition. The Bonanza copper mine of W. E. Hensley, one of the largest and richest copper properties in the Territory, will probably change hands in a few days at a figure reaching hundreds of thousands. There has been considerable development on the property and a large quantity of metallic copper is found in the working. One of the experts who examined the property, estimates there were \$2,000,000 worth of ore in sight. This is good news for Hensley who is one of the most deserving men in Arizona, and he has stuck to Washington Camp through good and ill reports. His reward is coming at last. James Finley's mill, at Harshaw, will be in operation within thirty days at the Herman mine.

WILCOX WARBLINGS.

The Chiricahua Cattle Company shipped five cars of beef steers to San Diego yesterday. Two carloads were of their own raising, and the others, sixty-five head, were purchased from Mr. B. Riggs and sons and Mr. Louis Prue. The cattle were all in good condition. Jim McClure was in charge of the shipment.

Observer Pugh's weekly weather report: Maximum temperature, 17.5 degrees on January 3d. Prevailing direction of wind, northeast and east. Miles L. Woods has been awarded the contract for fencing the military reservation at Fort Grant. The fence is to be of wire, and will be about eighteen miles in length.

Mrs. Coyle, late proprietress of the Wilcox House, and sons left Tuesday for Benson. They will probably go to the new mining camp in the Harshaw mountains. Mr. Coyle is already there.

Mr. J. M. Jones, the San Francisco beef buyer, has purchased about 1,000 head of cattle from stockmen of this vicinity, and will make the first shipment—a train load—to California on Monday next. He has made his purchases from eighteen different cattlemen.

Agent Nichols informs us that he has orders for sixty cattle cars, to be used during the coming week.—Stockman.

Off for the Digging.

A party consisting of Frank Yaples, Chas. Bush and Pat Harrington, will leave next week for the new camp. The two latter will leave by wagon and will take a full load of provisions and necessary paraphernalia for settling down. Mr. Yaples will go by rail to Sentinel Station where he will join the wagon party, and will accompany them to the mines. If the outlook is favorable, Mr. Yaples will erect a hotel or lodging house at once and remain there. The PROSPECTOR wishes the party good luck in their venture.

The Palace Hotel is now better than ever prepared to accommodate the public. The only two-story hotel in the city. First class in every respect and furnished throughout in elegant shape. Tenth and Fifth street. Visitors to Tombstone should ask to be left at the Palace.

13-23M Mrs. BASTIAN, Proprietress.

COAST CLIPPINGS.

Captain Gilbert was fatally shot at San Bernardino on Monday by W. Rowland, a drunken patron of his saloon.

Large plantings of shad and speckled catfish will be made in the streams of Utah next June by the United States Fish Commissioner.

Alexander Foster, car inspector for the Atlantic & Pacific railroad, was run over and killed at Albuquerque, New Mexico, last Saturday.

The Salt Lake Tribune says: The protest against the admission of Utah has already received 4,768 signatures, with Salt Lake, Ogden and most of the larger towns yet to hear from.

Trouble is anticipated at Corvallis, Ore., over the failure of J. R. Meyer & Co. railroad contractors. Laborers are going into town, and several hundred are there now, who demand their money.

L. F. Durfee, passenger brakeman of the Oregon Short Line, was murdered at Pocatello, Idaho, last Sunday, by E. J. Wright, a butcher. Wright escaped but was captured in a few hours. He was fatally shot in the head before giving up.

At San Diego, Dec. 26, the American ship, South American, 1,694 tons register, arrived. She has broken the record from Australia. She made the trip in fifty-three days from Sydney, which is eight days better than ever before made.

Henry Larsen was drowned in the Willamette river at Portland, Or., December 26. He had received money from his wife at Sacramento to return there, and had resolved to have a good time before he departed. He was in a drunken condition when he lost his life.

A dispatch from Needles says: West-bound travel has increased so on the Atlantic & Pacific road that the company will put on, about January 10, two regular passenger trains each way daily. Freight traffic is also heavier than ever before, shippers fearing the proposed rise in rates.

The ranch of Eli T. Sheppard, consisting of 400 acres near Sonoma, and including a winery, distillery and 80,000 gallons of wine and brandy, was sold on Monday to Senator Hearst. The deed does not state the correct consideration, but it is thought the price paid was \$80,000.

Returned From Sonora.

Howard Herring and Phil Hart who left Tombstone on the first of December last, for a trip through Sonora, returned yesterday. They went some distance below Oposura but were unable to go the extent of their journey owing to the river being swollen. On their return they met George Warren who was the original discoverer of the Bisbee copper camp, and who has been in Sonora for the past three years. He returned with them and has not changed a particle since he left Tombstone.

Worth Knowing.

Dr. W. H. Morgan, merchant, Lake City, Ill., was taken with severe cold, attended with a distressing cough, and running into consumption in its first stage. He tried many so called popular cough remedies and steadily grew worse. Was reduced in flesh, had difficulty in breathing, and was unable to sleep. Finally tried Dr. King's New Discovery for Consumption and found immediate relief, and after using about a half dozen bottles found himself well and has had no return of the disease. No other remedy can show so great a record of cures, as Dr. King's New Discovery for Consumption is guaranteed to do just what is claimed for it. Trial bottle free at J. Yonge's drug store.
